RE: BriteCore application updates, commercial form updates & rate increase

We have updated the BriteCore application to correct some discrepancies that have been discovered. These updates include the following:

- 1) Agreed Value for scheduled jewelry in the farm program is now available.
- 2) The log home surcharge is now available in the dwelling program.
- 3) The non-visibility surcharge is now available in the mobile homeowner program.
- 4) The \$25,000 minimum limit for Broad Perils in the mobile homeowner program has been removed.
- 5) The Mobile Homeowner Pac & PacPlus endorsements are now available in the Preferred Mobile Homeowner program.

We have also updated some of the mandatory forms in the CPP-Commercial program. The WMS PDT9 form has been updated to the 7/20 version, the WMS CTL has been updated to the 01/15 version and the GL-1024 09 09 will be added to all CPP-Commercial policies. Attached are copies of the updated forms and the disclosure notice that has been sent to the insureds.

Finally, a 5% rate increase is being applied to the Coverage A-base rates for farmowner, homeowner, dwelling, mobile homeowner and mobile home programs. This increase is a result of rising claims, adjusting costs and to preserve our loss ratio going forward. Attached are the updated rate pages for the respective programs.

These changes are all effective on May 1, 2021 for new and renewal policies. The forms and rates pages will also be updated in the agent center of the mutualofwausau.com website under forms and manuals tabs.

Thank you for your continued business!
